
Title: TPL Vision – Lighting solutions for complex machine vision applications.

Alrad Imaging is pleased to announce they now offer machine vision light solutions from TPL Vision. Currently a leader on their home market in France, TPL Vision develops solutions to answer your most complex machine vision lighting challenges.

TPL Vision designs and manufactures lighting products using exclusively high Power LED lighting. As a lighting expert involved in machine vision, TPL Vision offers a consultancy and feasibility service for each project you may have.

Quality, know-how and availability are the company's key principles. TPL Vision is a pioneer especially in the miniaturization of High Power LED lights. TPL Vision products are designed to meet the most demanding industry standards.

The product range includes ring lights, spotlights, and backlights, high power LED coaxial lighting units, strip lights and strobe lighting.

So whatever your application, whether it be demanding environments, high production rates, web inspection or packaging - talk to us about how TPL Vision can help you. Call us now or visit our website www.alrad.co.uk for more information.
